Banqueting suite table set-up

The seating arrangement in our banqueting suite follows a basic set up, however we are able to re-arrange the set-up in accordance to your preference. We have both round tables as well as rectangular tables. A dance floor area is allocated to the right-hand side of the room on entry into the banqueting suite. The food is all table served and tables are set-up in conjunction to this. In a buffet set-up is required for the event, tables may need to be re-arranged based on allocation of where the buffet is being arranged.
